

*Instructions for presentation:*

- Guide for Presenters: Maximum size: B1, minimum size: A1. The poster board is 90 cm (wide) x 120 cm (tall). Please, prepare posters in the poster hall in the morning on the day of the presentation. For the location of the poster, refer to the program book and conference information. The posters must be taken off at the end of the day. Tools for fixing of posters will be supported by the organizers to stick the posters onto the poster boards.
- Poster presentation hints: Short PowerPoint presentation of the paper and the related poster is necessary, where the maximum available time is 3 minutes, otherwise, the presentation will be cut off by the chair. The recommended content of the short presentation is no more than 3 slides, otherwise, it will be impossible to fit into the time limitations. The short talks will be presented in the Conference Hall, then the session will continue by discussion next to the poster board.
- Poster presentation recommendation: The first slide is the opening slide, with name, title, affiliation, poster number. The second slide is recommended to be a short description of the problem and the experimental methodology, then the third may present the main results in a short form. The purpose of the short presentation is to wake interest and convince the audience to come to the poster for further discussions and information exchange.
- Oral presentation hints: Oral presentations cannot exceed 20-25 minutes (including Q&A). The chairperson will check the time of your presentation. Please be advised that presentations exceeding the limit will be cut off by the chair in the interest of time. Please try to summarize your results in 10-15 slides.
- Copying presentations: Presenters do not have to bring their own computers. There will be a Windows-based laptop computer that will be available in the session room. Your presentations will be accepted in the USB Flash drive form. The computer will be provided to upload presentations and test them in the meeting room before the particular section starts. There will also be a technician who will assist you in all technical matters.
